Location: Córdoba, Argentina

PROFESSIONAL PROFILE

Software Developer focused on building purposeful technology. My goal is to translate business needs into robust, scalable, and maintainable web solutions. I have experience across the full development lifecycle, using technologies such as React, Angular, and Python/Django to create applications that deliver real value. I am actively seeking opportunities to tackle technical challenges and grow alongside an innovative team.

TECHNICAL SKILLS

Python, **TypeScript**, **JavaScript**, **React**, **NextJS**, **FastApi, Django, AWS, Wordpress,** MySQL, PostgreSQL, Git, GitHub, Scrum, Kanban, English B2

WORK EXPERIENCE

DGES Córdoba – WordPress + PHP Internship (Present)
Collaborated in the development of a new version of DGES. Involved from modeling to implementing WordPress functionalities using PHP, as well as improving responsive design and JavaScript logic. Version to improve: https://dges-cba.edu.ar/wp/
